Summary

Graduate in IT Specializing in Data Science at SLIIT (2022–2026), **Education: O/L (2017) – 9A's, A/L (2022) Physical Science Stream:** A, B, C) and former student of D.S. Senanayake College, Colombo 07. Skilled in Python, SQL, Power BI, machine learning, project management and Software Testing & Automation with experience in computer vision, NLP and predictive modeling. Able to turn complex data into actionable insights and build impactful Software solutions.

Work Experience

Project Management Intern | VSIS | April 2025 – October 2025

- Assisted in managing Cloud-related & InfoSec related projects by coordinating tasks between development and business teams, improving workflow clarity and task tracking.
- Supported project planning and documentation, ensuring timely updates and better communication across stakeholders

Business Researcher | Freelance | June 2024 – December 2024

- Conducted research on business models and IT strategies, contributing to improved sales insights and decision-making processes.

Technical Skills

Programming Languages	Python, R, SQL, JavaScript
Libraries/ Framework	Pytorch, Roboflow Inference SDK, Hugging Face Transformers, OpenCV, Pillow, Google GEN AI SDK
Databases	Oracle, MySQL, MongoDB, SQL, Firebase, Supabase
Cloud & DevOps	Microsoft Azure, AWS, Docker
Quality Assurance	Test Case Writing, Manual Testing, Smoke Testing, Black Box Testing, Bug Reporting, Selenium
Project Management	Jira, Asana, Trello, Microsoft Project
Data Tools	Power BI, Excel, Statistics

Soft Skills

- Analytical & Critical Thinking
- Problem Solving & Adaptability
- Attention to Details
- Communication Skills & Report Writing
- Teamwork & Collaboration
- Time Management & Organization

Business Projects

PortalKit | Client-Freelancer Project Management System

[Live Site](#)

- Undertook manual, smoke and black box testing of a client-freelancer project management system to ensure functionality of the system prior to UAT release.
- Developed and performed test cases, documented bugs, and worked alongside the development team to enhance software quality.

Personal Projects

Criclytics

[Demonstration](#)

[Visit GitHub Repository](#)

- Created an interactive Power BI dashboard for cricket analytics, utilizing real-world data to provide insights into player performance, match strategies, and trends.
- Faster reporting and data-driven decisions using better data processing and visualization.

Academic Projects

Retention Radar | Predictive AI model

[Visit GitHub Repository](#)

- Led a hiring analytics project for data scientists, performing data cleaning, preprocessing, and handling imbalanced datasets.
- Built and deployed predictive models (Decision Trees, Random Forest, SVM, Logistic Regression) using Flask with a Simple web interface.

Instrument Hub | AI recommendation System

[Visit GitHub Repository](#)

- Developed a personalized e-commerce recommendation system for musical instruments using machine learning, applying collaborative and content-based filtering and improved recommendation accuracy.

Competitions

MedIntel | AI-Based Antibiotic Recommendation System - Brainstorm 2025 (IEEE EMBS University of Moratuwa)

- Participated in development and validation of an AI-driven antibiotic recommendation system that was chosen as semifinalist at IEEE EMBS Brainstorm 2025.

Online Certificates

Microsoft Certified: Azure Fundamentals (AZ900), ISTQB Certified Tester Foundation Level (CTFL)- Currently Preparing, [Statistics Foundations \(1-4\)](#) , [Learning Data Analytics: 1 Foundations](#), [Power BI: Dashboards for Beginners](#), [Business Analysis Foundations](#), [SQL for Data Analysis](#)
